

Job Title: Manager

Department: Data Analytics

General Summary

Avalere Health is a leading advisory firm delivering research, analysis, and strategy for leaders in healthcare business and policy. Based in Washington, DC, Avalere works with a diverse range of clients spanning Fortune 500 companies in life sciences, healthcare financing, and healthcare delivery, major foundations focused on improving the health system, government agencies, advocacy and patient groups, and other organizations. Respected and influential journals publish the work of Avalere professionals, and Avalere's policy conferences advance knowledge of healthcare policy and strategy. Avalere Health is currently looking for a **Manager** to join our growing Data Analytics practice.

The Data Analytics practice consists of staff with specialized experience, such as programmers, methodological experts, and project managers, who conceptualize, execute, and deliver analytical work products for clients. We also work closely with other practices within Avalere, applying the full scope of the firm's knowledge base to the development of multi-disciplinary, creative solutions on behalf of our clients.

Principal Duties and Responsibilities:

- Review pharmaceutical product dossiers and clinical guidelines
- Conduct systematic literature reviews
- Contribute to development of proposals and concept papers
- Use knowledge of clinical epidemiology to help design study proposals, protocols, reports and publications
- Design and implement health outcomes and/or economic studies
- Supervise junior staff and provide mentorship/training
- Develop and/or review study reports, scientific publications, abstracts, and posters

Skills, Experience, and Other Job Related Requirements:

- Broad technical knowledge of health economics and outcomes research
- Proficiency in design and execution of economic modeling studies used in dossiers supporting formulary inclusion, and pricing of pharmaceuticals/medical devices
- Working knowledge of clinical epidemiology and clinical services rendered in major therapeutic areas; ability to gain such knowledge as projects arise in specific clinical areas
- Design and conduct of systematic literature reviews
- Retrospective and prospective research experience; large claims database management and analysis experience preferred
- SAS, SPSS and/or STATA experience required
- Descriptive and inferential statistical techniques and/or econometric skills
- Familiarity with the U.S. pharmaceutical and/or medical device industry product development and commercialization process preferred; comparable global knowledge a plus
- Excellent writing, project management, communication and presentation skills
- 3-5 years consulting, healthcare, or pharmaceutical/device industry experience required; management experience preferred

- Master's degree in economics, health economics, health policy, health services research, public health, epidemiology, statistics or related discipline. PharmD or PhD preferred

Compensation:

Avalere's culture is one of close collaboration, candid and constructive feedback, and assignment of responsibilities on the basis of ability and availability, without undue emphasis on rank. We prize curiosity, resilience, a passion for excellence, and a willingness to embrace new challenges. Avalere offers competitive compensation and benefits commensurate with experience. Located on DC's famed and vibrant Dupont Circle, Avalere is centrally situated and readily accessible from all over the DC metro area. For more information, visit www.avalerehealth.net

Qualified candidates should submit electronic copies of the following:

- Cover letter
- Salary requirements
- Resume
